

Project Profile

Carshalton Apartment Complex

An old failing built-up felt roof on a 1960s apartment complex in Carshalton, Surrey, has been replaced by a system that, according to Acrypol, represents the future for flat roofing.

System 15 is an advanced seamless application, designed for fast, cost-effective refurbishment projects. It has replaced the entire 700m² roof at New Colebrook Court, which had deteriorated after only 10 years.

The innovative cold application package delivers a seamless finish that is backed by a 15 year guarantee and, because it has a life expectancy of more than 20 years, it promises to outlive its predecessor. It was chosen for the project by roofing specialists LHC Roofing.

Client: LHC Roofing

Project: Carshalton Apartment Complex, Surrey

System: System 15
