

Project Profile

Caldicot Comprehensive School

With increasing pressures placed on public sector specifiers to combine cost-effectiveness with performance, Acrypol +, from manufacturer Acrypol Products Limited, is being repeatedly named as an industry favourite.

Monmouthshire County Council required immediate action to refurbish and up-grade the roof of Caldicot Comprehensive School. The 450 SqM area, originally a mastic asphalt specification, was beginning to fail and action had to be taken to prevent any internal damage. Acrypol +, requiring just one application to fully encapsulate, protect and waterproof the building was, therefore the ideal choice.

Client: Monmouthshire County Council

Project: Caldicot Comprehensive School

System: Acrypol +
